De la Naturaleza a la mesa

En las praderas orientales el ganado se cría a cielo abierto todo el año, en completa armonía con la naturaleza. El clima templado, las tierras fértiles y gran abundancia de agua generada por numerosos ríos y arroyos, aseguran el bienestar de los animales.

Cada animal tiene disponible para sí mismo una superficie de pasturas equivalente a dos canchas de fútbol.

Está prohibido por ley el uso de hormonas y antibióticos en la alimentación del ganado.

El país tiene larga tradición y cultura en producción y exportación de carnes. Las carnes uruguayas son sinónimo de alta calidad y delicioso sabor para el mundo entero. En la actualidad, se exportan dos tercios de la producción a más de 100 mercados. Nuestros principales compradores son: Unión Europea, China, Nafta, Mercosur, Israel y Federación Rusa.

Para alcanzar este nivel, los técnicos nacionales diseñaron los mejores sistemas de información ganadera del mundo. Uruguay es el único país capaz de contar con el historial de todo su rodeo vacuno, pudiendo además ofrecer garantías de procesos certificados.

From Nature to your table

In the east meadows, cattle graze in the open year-round in complete harmony with nature.

The temperate climate, fertile lands and abundant rivers and streams ensure the animal's well-being. Each animal has the equivalent of two soccer field's worth of pastureland on which to graze. The law prohibits the use of hormones and antibiotics in cattle feed.

Uruguay has a long tradition and culture of meat production and export. Uruguayan meat is known throughout the world for its high quality and delicious taste. Today Uruguay exports two-thirds of production to more than 100 markets. Our main customers are the European Union, China, Nafta, Mercosur, Israel and the Russian Federation.

To achieve this high level of quality, Uruguay's cattle industry experts have designed the best cattle information systems in the world. Uruguay is proud to be the only country capable of monitoring its entire supply chain, in addition to being able to demonstrate its certified production processes.
